## **Georgia’s State Road and Tollway Authority Selects Fagan Consulting, LLC as General Systems Consultant**

(Austin, Texas) – Fagan Consulting, LLC, an electronic toll collection operations and transportation system consulting firm, today announced that the State Road and Tollway Authority (SRTA), a state-level, independent Authority created by the Georgia General Assembly to operate Georgia’s tolled transportation facilities, has selected Fagan Consulting, LLC as their General Systems Consultant. Fagan Consulting will provide services related to roadside tolling collection, back office system enhancements and tolling infrastructure projects management.

“Fagan Consulting, LLC offers clients like SRTA deep experience in the systems and technology sector, covering the full spectrum of electronic tolling and information technology needs based on an integrated, client-centric approach. We are excited to leverage both our passion for and experience in operations and toll collection systems, to help SRTA take its program to the next level,” said Principal Ron Fagan, Fagan Consulting, LLC.

SRTA manages the I-85 Express Lanes and is currently developing plans to extend the I-85 Express Lanes project. In addition, SRTA and the Georgia Department of Transportation are constructing two separate reversible managed lane facilities in the I-75 corridor – one facility is northwest of the City of Atlanta and the other is due south of the city. SRTA is also working with Florida and North Carolina to establish regional interoperability.

### **About Fagan Consulting, LLC**

Fagan Consulting, LLC is a highly experienced electronic toll collection operations transportation system consulting firm working with a number of local and state toll

authorities. Fagan Consulting blends proven operational and toll collection systems consulting services with cutting edge technology counsel to craft strategic programs that give clients practical and applicable processes.
