Expertise Continues to Join Fagan Consulting, LLC
Amy Bishop, Transportation Systems Consultant / Business Analyst

(Austin, Texas) – Fagan Consulting, LLC, a transportation system consulting firm, announced Amy Bishop, a systems consultant and business analyst, has joined Fagan Consulting, LLC’s team of toll systems consultants. Bishop is a detailed, requirements focused business and systems analyst.

"Amy’s analytical approach, project coordination skills and customer focus are exemplary. Our customers will benefit greatly from her understanding of requirements development and implementation." says Principal, Ron Fagan. "Amy’s ability to coordinate and develop complex software projects is a key strength she brings to our team. Everyone who works with Amy thinks highly of her both as an analyst and as a person. We could not be more pleased that she agreed to join our team."

Prior to joining Fagan Consulting, LLC, Bishop was with 3M / FSTech and was seen as the go to person for direction on system design, business rules and requirements.
