Hugh Shults Expands Fagan’s Ability to Improve Tolling Solutions
Hugh Shults Joins Fagan Consulting, LLC as Senior Transportation Systems Consultant

(Austin, Texas) – Fagan Consulting, LLC, a transportation systems consulting firm, today announced that Hugh Shults has joined their team of toll systems consultants. Mr. Shults brings an exceptional level of expertise in management, risk identification and mitigation, systems development, and toll administration. He has an in-depth knowledge of tolling systems from two points of view; systems back-end programming and integration, and client/end user needs. “I knew of Hugh’s reputation when he worked with VESystems coordinating back office development for CTRMA and TxDOT. We are excited about the organizational and strategic talents he brings to our firm and our clients” said Ron Fagan, President of Fagan Consulting.

Mr. Shults has worked on several high-profile or high-risk projects for agencies and vendors across the US including EMC, IBM, Dell, and HP, North Texas Tollway Authority (NTTA), Harris County Toll Road Authority (HCTRA) and Central Texas Regional Mobility Authority (CTRMA). Hugh’s oversight expertise in tolling security, data integrity, and advanced system integration is one more strength that cultivates Fagan’s client’s projects into a successful investments.

Prior to joining Fagan Consulting, Mr. Shults managed the software delivery and implementation for the Motor Vehicle Software and Services (MVSS) program for 3M; implementing best practices for program management and IT systems.
